Austin Hang-Up Sculptural Puzzle

USA, 1970

.5 x 14 x 3.25

\$450

Anodized aluminum and walnut hanging puzzle with red and yellow triangular pieces. Designed by Austin Cox for his company, Austin Enterprises. Suitable for the wall or table, the objective is to arrange the twenty triangles to form a perfect square. The solution dates back to the Pythagorean theorem. This version includes the original label on the back.
